FOM-8 Fused Output Module

FEATURES

8 way fuse carrier providing up to 8 independently fused outputs from a single fused output power supply. Ideal for applications such as multicircuit CCTV camera, multiple door lock circuits in access control, multiple sounder circuits in intruder systems etc. Module is provided complete with self-adhesive feet for flexibility and ease of installation into existing enclosures without the need to drill extra holes.

- Up to 8 independently fused outputs
- Self-adhesive fixings
- Input wiring provided

SPECIFICATION

Input voltages up to 50v dc, 6A maximum current rating
Output 8 x 20mm fused outputs, max. rating as per table below

Supplied with 8 x T500mA fuses as standard

		Maximum Input Current					
		1A	2A	3A	4A	5A	6A
No. of fused outputs	1						
	2	500 mA	1A	1.5A	2A	2.5A	3A
	3			1A	1.25A	1.7A	2A
	4	250 mA	500 mA	750 mA	1A	1.25 mA	1.5A
	5				800 mA	1A	1.2A
	6			500 mA	650 mA	800 mA	1A
	7						
	8	125 mA	250 mA	350 mA	500 mA	625 mA	750 mA

Caution:

**DO NOT exceed maximum current output of power supply.
NOT suitable for mains voltages.**
